Ledstripekampanje On/Off 2

About the product: Explore our versatile and colorful LED strip, designed to illuminate any space with a vibrant blend of colors and light. With an RGB color temperature and color code, this LED strip gives you the opportunity to create an atmosphere that suits any mood or occasion. With an impressive luminous output of 260 lm/m and an efficiency of 18 lm/W, this LED strip offers both brightness and energy efficiency. The wide beam angle of 120 degrees and 60 LEDs per meter ensure even and uniform illumination across the entire area. With a system voltage of 24VDC and a system power of 14.4 W/m, this LED strip is optimized for reliable performance and long lifespan. Depending on the driver, it can be easily dimmed to adjust the brightness as needed. Installation is easy with adhesive tape, and with a 2-meter long cable for connection, you can place it exactly where you want it. It can be cut every 100mm to fit various lengths, and with a maximum length of 5 meters, it can be customized for any project. With IP65 protection, this LED strip is suitable for both indoor and outdoor use. Applications: This LED strip is ideal for a variety of applications where accent lighting is needed to create ambiance and functionality. Install it discreetly in closets to provide better visibility and aesthetic appeal to storage areas. Place it along shelves to highlight decorative items or improve the visibility of books and collections. On stairs, it provides safer conditions and a sophisticated style. Mount it on walls to add depth and interest to the room. With this LED strip, the possibilities to enhance your home and add a touch of elegance and functionality are virtually endless. This LED light strip has an IP-65 rating, providing good protection and can therefore be mounted in wet rooms. Package includes: 1 LED strip of 5 meters and 1 on/off driver
