# NWC Wall Switch

Norlux Wireless Control WP1025 is a versatile, battery-powered Bluetooth wireless wall switch that provides seamless control over your Norlux Wireless Control devices. It offers various functions, including ON/OFF, DIM+/DIM- for light adjustment, AUTO for automatic control, and three customizable scenarios. In addition, WP1025 can function as a remote control, allowing you to operate your Keilton+autani ecosystem from anywhere within the wireless range, ensuring reliable and secure Bluetooth communication.
