T-Line is our new fixture designed for direct installation in a 3-phase track. The installation is quick and easy, as the T-Line clicks directly into the 3-phase track. The T-Line operates at 20W, but the light output can be adjusted down to 14W, 16W, or 18W using the DIP switch on the fixture. It comes with a 3000K color temperature and a 90° beam angle.
