Lighting Solutions

NWC Wall Switch

Switch for Norlux Wireless Connect. This is a versatile, battery-powered Bluetooth wireless switch that provides seamless control of Norlux Wireless Connect devices. It offers various functions, such as ON/OFF, DIM+/DIM- for light adjustment, AUTO for automatic control, and three customizable scenes. Additionally, the switch can function as a remote control, allowing you to operate your Norlux Wireless Connect system from anywhere within the wireless range, ensuring reliable and secure Bluetooth communication. Bluetooth 5.0 network technology allows the switch to connect to one or more light groups via the Norlux Wireless Connect app. Powered by a single CR2032 battery.
