NWC 230V Ceiling sensor

NWC 230V ceiling detector with Bluetooth and dual-tech motion sensor that combines PIR and ultrasonic technologies to provide high accuracy and wide coverage. It also features integrated daylight control. Setup via the Norlux app allows the sensor to turn on a load and keep it on if either or both technologies detect motion. The detector works seamlessly with other wireless devices in the NWC system.

IP20

SPECIFICATIONS

Ingress Protection:	IP20
Color:	White
Length:	114mm
Height:	58,5mm
