NORLUX®
Lighting Solutions

NSW Pro Gateway WH

Remote control all devices via the internet   turn on/off, adjust settings, activate automatic mode, and save energy. Set timers for circadian lighting and time management   no matter where you are. Connect up to 100 devices via Bluetooth Mesh and gather insights on product usage. Data is securely stored in a European cloud service, with local backup in case of power outages.
Choose between white or black finish, surface-mounted or pendant installation, and power via PoE or 12V DC.
Suitable for supermarkets, fashion stores, grocery stores, car dealerships, furniture stores, art galleries, offices, homes, and more.
