NSW Smart Sensor Surface 3in1: PC/HM/AS BK

Norlux Smart Wireless Smart Sensor Surface 3in1 is an intelligent solution for stores looking to optimize lighting and analyze customer flow. It is perfectly suited for retail, where effective light management can impact the customer experience and increase sales.

The sensor offers features such as heat mapping customer counting and automatic scene function. With a detection angle of 120 degrees and a detection range from 3m to 4m height it covers large areas. Power supply via PoE or 12V DC provides flexibility in installation.

The product has an IP20 rating.

IP20
