

CBU 2-ch 0-10V/DALI Casambi

The AIMOTION controller controls individual luminaires in the Bluetooth Low Energy Mesh network without the use of gateways, routers, repeaters or extra cabling. The controller is connected directly to 100-240 Volt AC. The DALI-BUS output can be loaded with up to 20 mA max. The configuration and selection of the appropriate profile for the different operating modes (8xDIM, TW, RGB, RGBW, etc.) is done wirelessly via the Casambi App. The installation may only be carried out by a qualified electrician.
