

NSW K Pro Dual AIColor+People Counting 35W 24° 3-Cir BK

FUNCTIONALITY DESCRIPTION

NSW K Pro Dual AIColor+People Counting 35W 24° 3-Cir BK is primarily designed to provide intelligent lighting with data-driven insights for retail environments. Built-in sensors enable customer counting and movement analysis within the store, delivering valuable data for store management. Additional features include AI-based light control, adjustable via an app through Bluetooth, as well as the option for different light distributions. The lamp is designed to be cost-effective and suitable for multiple installation types, offering flexibility for various lighting needs.
