Lighting Solutions

NSW Smart Sensor Surface 3in1: PC/HM/AS WH

Norlux Smart Wireless Smart Sensor Surface 3in1 is an intelligent solution for stores looking to optimize lighting and analyze customer flow. It is ideal for retail where effective light management can influence the customer experience and increase sales.

The sensor offers functionalities such as heatmapping customer counting and automatic scene function. With a detection angle of 120° and a detection range from 3m to 4m height it covers large areas. Power supply via PoE or 12V DC provides flexibility during installation.

The product has an IP20 classification.

SPECIFICATIONS

System Voltage [V]:	230V 50Hz
Ingress Protection:	IP20
Color:	White
Height:	28mm
Width:	90mm
