## Sonos ONE SL Stereoset 2xspeaker BK

Get richly detailed sound in up to two rooms in your home with this surprisingly powerful pair of speakers. You can easily start or expand your multi-room system and enjoy music, radio, podcasts, audiobooks and more from all the streaming services you like best. Create a stereo pair when you place both speakers in the same room. You can also use them as rear speakers in your Sonos home theater system for immersive surround sound. Controlled easily with the Sonos app or through Apple AirPlay 2. Differs from the Sonos One in that it is without a microphone.
