NWC Plug in node IP66

This node is an advanced Bluetooth control node designed for seamless integration with Norlux Wireless Connect. With an enhanced antenna design, it achieves superior range of up to 100 meters, making it ideal for large installations. It is IP66 rated, ensuring robust protection against dust and water ingress, while the white finish is specifically designed to aesthetically blend into commercial indoor lighting luminaires. The casing is made of a polycarbonate material, providing exceptional durability and resistance to environmental degradation.

TECHNICAL DATA	
IP (system)	IP66
Outdoor	Yes
Type (accessories)	Sensor

CONTROL SYSTEM	
Norlux Wireless Connect	Implemented
System	NWC

DIMENSIONS	
Height (product) (mm)	39.2
