Lighting Solutions

Sonos ARC, Soundboard / Wireless Speaker BK

Bring all the entertainment to life with incredibly realistic sound and the 3D experience of Dolby Atmos. Immerse yourself in series, movies and games with crystal clear dialogue and two height channels that create an impressive feeling of spaciousness. When the TV is turned off, you can stream music and more from all your favorite services. You can easily control the soundboard with your existing remote control, Sonos app, voice and Apple AirPlay 2. Build a complete surround system with a subwoofer and a pair of rear speakers, and add more speakers around your home for multi-room listening. Everything works together over Wi-Fi.
