C Line Accessory 1250mm louver with prism.diff

C Line Accessory 1250 mm Louvre with Prismatic Diffuser is an accessory designed for C Line luminaires. The combination of a louvre and a prismatic diffuser improves visual comfort by reducing glare while ensuring even light distribution. The accessory is intended for 1250 mm luminaires and is ideal for applications where lighting comfort and controlled light output are important. It is installed as an integrated part of the luminaire and provides a professional and functional appearance.
